Hazardous Weather

Near Normal Highs Today

Isolated Thunderstorms this Afternoon/Evening

Weather Forecast Office
Midland/Odessa, TX
Issued July 11, 2017 3:15AM CT

Near normal temperatures expected today with highs generally in the mid 90s. Upper 90s to near 100 for areas along the Rio Grande and Pecos River Valleys. There is a chance of thunderstorms this afternoon and evening mainly near the mountain regions. The stronger storms will be capable of producing, gusty wind, brief heavy rainfall and occasional lightning strikes.

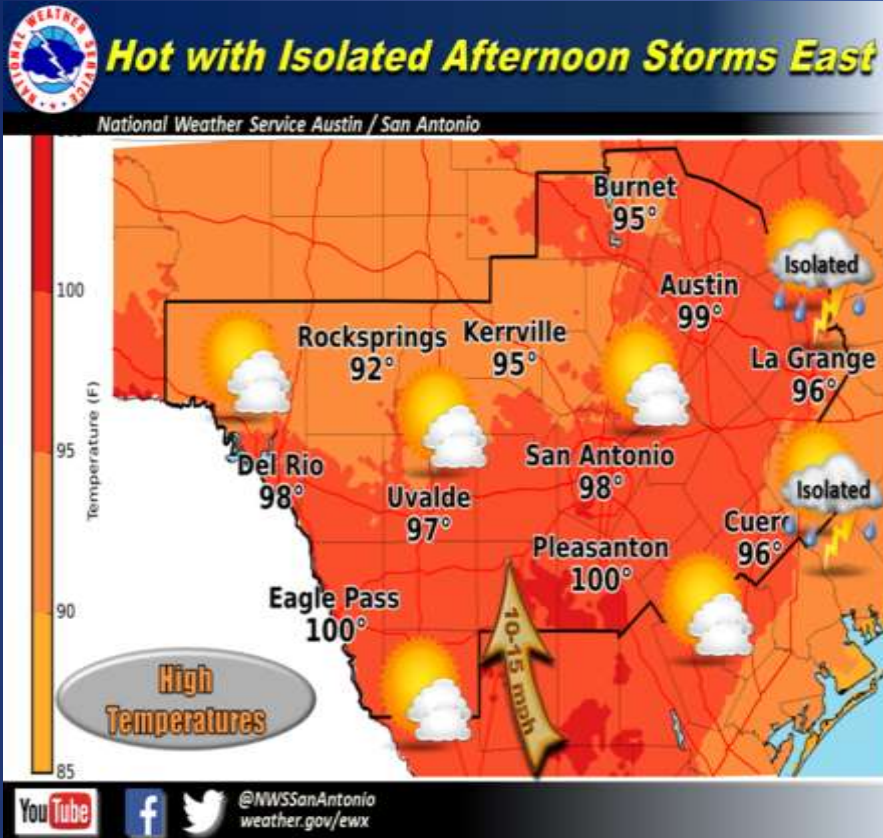

Afternoon Storm Chances Continue

National Weather Service Fort Worth

Isolated to scattered showers and storms are expected each afternoon through the middle portion of the week, mainly along and east of I-35. Otherwise, high temperatures will be in the 90s with heat index values in the upper 90s and low 100s. Low temperatures will fall into the 70s each night.

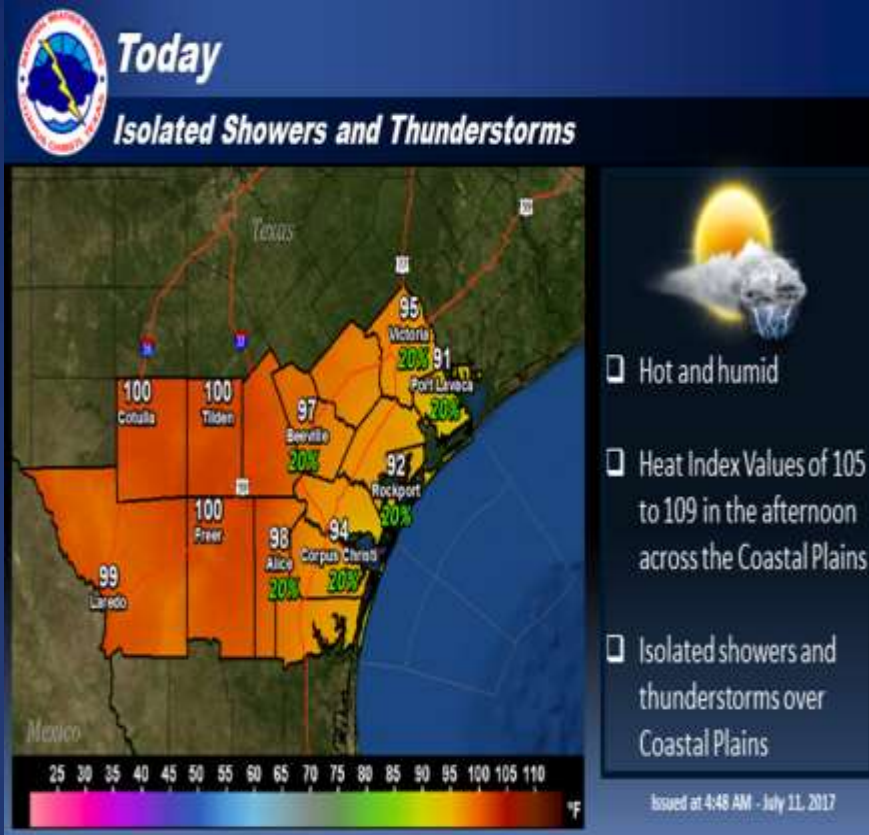

Hazardous Weather

Hot conditions are expected again today as high temperatures warm into the upper 90s to lower 100s across South Central Texas. Southerly winds of 10-15 mph can also be expected today. Isolated showers and thunderstorms will be possible across our eastern counties this afternoon, but areas farther west will remain dry. Heat index values will be in the lower 100s, so please remain hydrated while you are outside today!

Hazardous Weather

Moisture will increase across the region over the next few days. Isolated showers and thunderstorms will be possible across the coastal plains today, however most locations are expected to remain dry. The increased moisture will also lead to temperatures feeling like 105 to 109 degrees in the afternoon across the coastal plains. Take care if you have any outdoor activities planned.

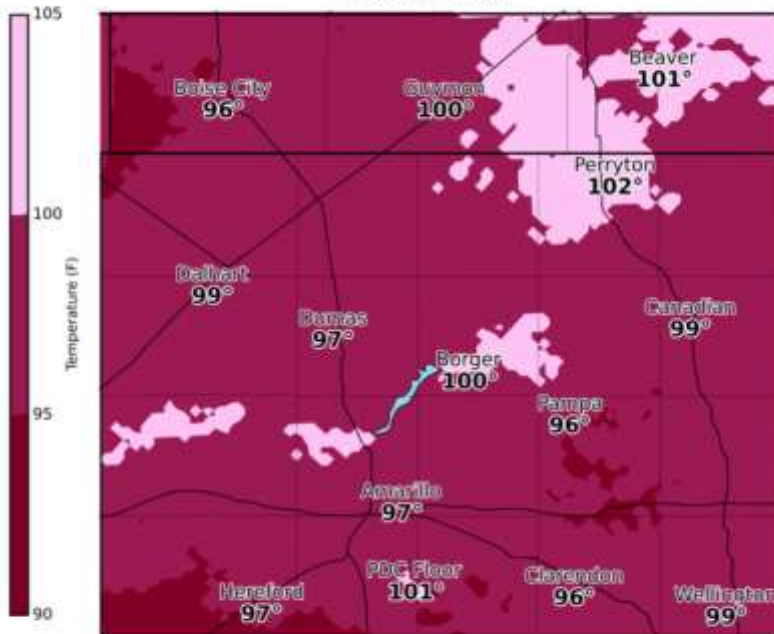

Seasonal high temperatures ranging from the low to upper 90s expected today across deep south Texas and the Rio Grande Valley with isolated showers and thunderstorms possible along the sea breeze this morning into early this afternoon. A moderate chop is expected on the Laguna Madre and Gulf seas range 1-3 feet with southeast winds increasing to 10-15 knots this afternoon.

Hazardous Weather

Afternoon Highs

Valid: July 11, 2017

National Weather Service
Amarillo Texas
07/11/2017 03:47 AM CDT

Follow Us: [f](#) [t](#) [v](#)
weather.gov/Amarillo

Highs will again be in the upper 90s to low 100s. There should be a bit more breeze than Monday though.

Tuesday Forecast

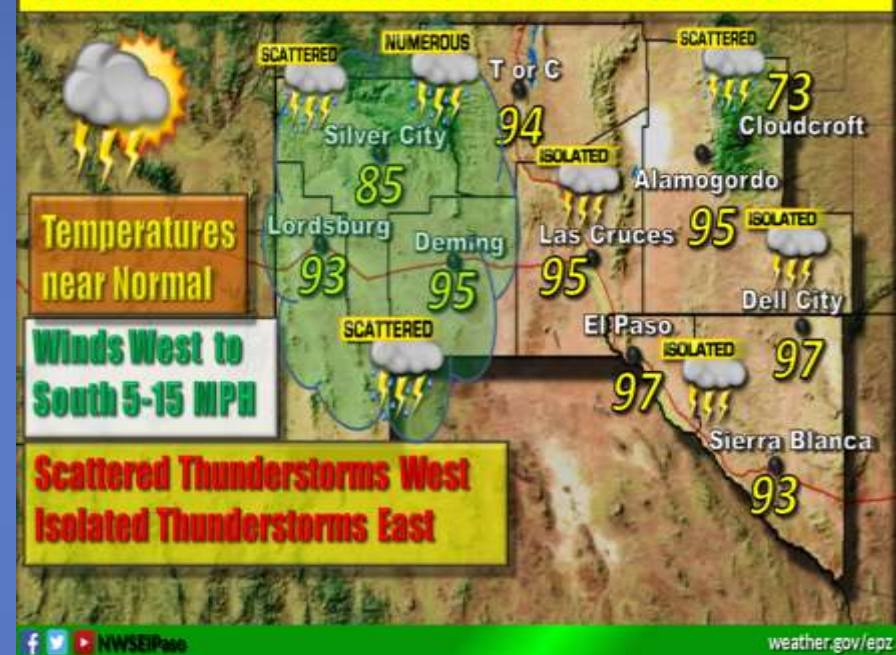

Weather Forecast Office

El Paso, TX

Issued July 10, 2017 4:37 PM

Shower and Thunderstorm Threat Continues

[f](#) [t](#) [v](#) NWSEIPass

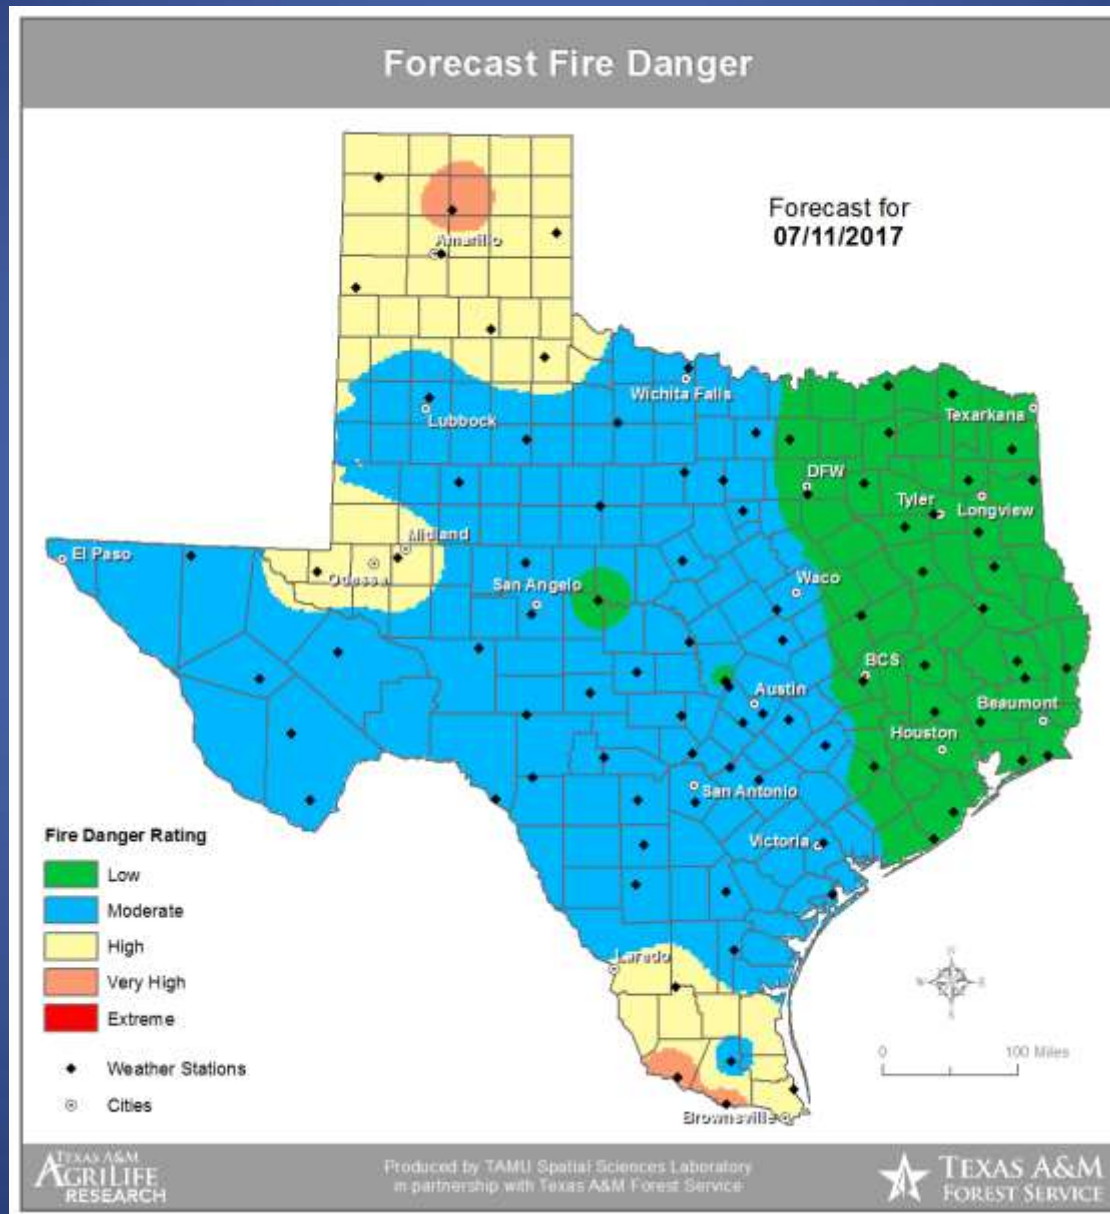

weather.gov/epz

Scattered showers and thunderstorms high mountains and west of the Rio Grande with isolated thunderstorms east. Temperatures will be very warm under partly to mostly cloudy skies.
